

One Year Action Plan for: Disaster Preparedness (Planning Worksheet for Ministry Teams)

Current Church Goal: Growing Shepherd's Creek through assimilating people into our church family through relationships.

Current Church Strategies:

1. Create a warm and Christ-centered environment where we regularly invite others, emphasizing relationships in **small** group settings.
2. Committing a specific percentage of our budget to outreach (10%), youth (5%), and marketing (10%).

My Team's Current Goal: (What has my team determined is most important for us to accomplish this year to support the accomplishment of the church goal?)

To create a church disaster plan that uses relationships to prepare our members for disasters.

My Team's Prioritized Tasks: (What specific tasks will my team need to accomplish to meet our goals for this year?)

1. Demonstrate a disaster supply kit on a Sunday and provide a list of recommended supplies to all members.
2. Assist members in developing family disaster plans and register them with the church.
3. Write a church disaster plan.

Training: (Is there training my team must receive in order to do these tasks?)

Task 1, 2, & 3: Network of Hope Disaster Kit Preparation Training

Materials: (What materials, such as equipment, human resources, office supplies, etc., will my team need to perform our tasks and what are the estimated costs of those materials?)

Task 1, 2, & 3: No costs to the church

Outreach: (How will my team reach out to the unchurched through each of these tasks?) Note: It may not be possible to perform outreach through each task, but evaluate each one for options.

Task 1 & 2: Encourage members to share the disaster supply checklists with their friends, family & neighbors.

Task 3: Share copies of the finished plan with other churches, neighborhood organizations, & other members of the community

Assimilation: (How can I include at least one additional person in each task?)

Task 1: Ask another family to share their disaster supply kit with the church.

Task 2: Ask for a volunteer to input the registration information for all members in the church software.

Task 3: Ask for volunteers to read and critique the disaster plan for the church

Hospitality: (How can I ensure everyone feels welcomed and special while my teams tasks are being performed?)

Task 1: Provide members with their own copies of the checklists and personally answer any questions.

Task 2: Volunteer to meet with members in their homes to help them with their family plans.

Task 3: Meet to discuss the disaster plan for the church in a comfortable environment with refreshments.
